PROFILE

Full Stack Developer with hands-on experience in building scalable and performant web applications using React, Node.js, and MongoDB. Skilled in collaborating with cross-functional teams to deliver high-quality products within tight deadlines. Passionate about creating user-friendly, responsive, and efficient web solutions.

PROJECTS

Income Expense Calculator

- Built a web app to track income/expenses with CRUD operations, filters, and local storage using HTML, CSS, JavaScript.

E-Commerce Website

- Developed a full-stack e-commerce platform with user auth, product search, and cart functionality using React, Node.js, Express, MongoDB.

Online Counselling Platform

- Developed and launched an online counselling platform using React.js, HTML, and CSS for a responsive front-end, integrated with a Node.js backend and MongoDB Atlas for data management. Implemented Google Video integration for secure virtual sessions and Stripe integration to handle online payments, enhancing accessibility and streamlining operations for users.

ADDITIONAL SKILLS

- Self-motivated and able to work independently in a remote setting
- Quick learner with a passion for continuous improvement
- Strong problem-solving and time management skills
- Adaptability to new tools and technologies
